1) _____ _____
2) _____ _____

(If any of the individuals listed above have not recently attended a WM conference, or in the WM data base, or if their contact data has changed since our last conference, please provide detailed contact information to WM staff.)

Please mark with an X in the gray portion of the following chart based on the interest of other Tracks on the proposed session and the type of session –Full (3-1/2 hrs) or ½ (1-¾ hrs). Also provide the estimated session attendance and the # of presenters. This information is for the Track Co-Chairs for their Track Summary Report and our Post Conference Session Evaluation.

Cross-Cutting Polic/Prgms	HLW/Spent Fuel	LL/IL/Mixed/Haz. WM	Nuclear PP Operat. WM	Packaging/ Transportation	Decon. & Decommisioning	Environ. Remediation	Public Involve./ Training	Safety, Security & Safeguards	Full or 1/2 Session	Est. Session Attendance	# of Presenters in Session

Please list the description and panelists' information for listing in the Preliminary Program. Listed below is an example of the desired style and format. Description should be less than 100 words. Please list the panelists in the order of speaking, or alphabetically by their last name.)

Example:

This panel session focuses on the International Decommissioning Network (IDN) of the IAEA and the related sessions throughout the WM2009 conference. The successful launch at the IAEA General Conference in September 2007 of the IDN marked a quantum leap in IAEA's traditional approach to international co-operation in nuclear decommissioning. The IDN was established to promote the vision of prompt, open, and efficient worldwide sharing of practical and effective decommissioning experience leading to safe, economic and timely dismantlement of disused nuclear facilities. WM attendees interested in the latest international developments in D&D should attend this panel.

Proposed Panelists Include: Wayne Norton, President and CEO, Connecticut Yankee (USA); **Michele Laraia**, Senior Officer, IAEA (Austria); **Vladimir Michal**, Senior Scientist, VUJE, Inc. (Slovak Republic); **Andrew Szilagyi**, D&D Program Leader, DOE (USA); and **Josef Podlaha**, Nuclear Research Institute (Czech Republic)

(List Any Special Instructions Below and Include Any Related or Background Information in Attached Envelope)
